

APPLIED BIOCHEMISTS®

PRODUCT REFERENCE GUIDE

Brand Solution	Problem	Treatment*
SWIMTRINE® PLUS	Mustard and green algae	Initial: 3 fl. oz. per 10,000 gallons Maintenance: 1 1/2 fl. oz. per 10,000 gallons every 2 weeks
SWIMTRINE® 7.4	Mustard and green algae	Initial: 4 fl. oz. per 10,000 gallons Maintenance: 2 fl. oz. per 10,000 gallons every 2 weeks
ALGAETRINE® algaecide	Green and mustard algae	Initial: 16 fl. oz. per 10,000 gallons Maintenance: 16 fl. oz. per 10,000 gallons every 3 months
BLACK ALGAETRINE® algaecide	Black algae	Initial: 12 fl. oz. per 10,000 gallons. Brush affected areas daily Maintenance: 6 fl. oz. per 10,000 gallons every week
SILVERTRINE	Black and mustard algae	Initial: 8 fl. oz. per 10,000 gallons Maintenance: 4 fl. oz. per 10,000 gallons every week
POOLTRINE® 50	Cloudy water due to algae growth	Initial: 5 1/4 fl. oz. per 10,000 gallons Maintenance: 1 1/4 fl. oz. per 10,000 gallons every week
POOLTRINE® 60	Cloudy water due to algae growth	Initial: 16 fl. oz. per 10,000 gallons Maintenance: 3 fl. oz. per 10,000 gallons every week
YELLOWTRINE® algaecide	Mustard algae and outbreaks	Initial: 4 oz. per 10,000 gallons Maintenance: 2 to 4 oz. per 10,000 gallons every week
SHOCKTRINE® granular	Cloudy water from contaminants Chlorine odor and irritation	Initial: 1 lb. per 10,000 gallons weekly for heavy bather load 1 lb. per 10,000 gallons every 2 weeks for light bather load Maintenance: Shock-oxidize pool as needed
STAINTRINE	Metal stains and scale	Initial: 16 fl. oz. per 10,000 gallons. Brush until removed Maintenance: 4 fl. oz. per 10,000 gallons every week
RESIST® stain control	Stain and corrosion formed from mineral elements at pool opening or top off	Initial: 16 fl. oz. per 10,000 gallons Maintenance: 4 fl. oz. per 10,000 gallons every week
REMOVIT® stain remover	Stain and scale due to minerals and metals	Initial: 1 lb. per 10,000 gallons
PREVENT PLUS® clarifier	Yellow, green and brown stains caused by non-metallic deposits	Initial: 4 fl. oz. per 10,000 gallons Maintenance: 3 fl. oz. per 10,000 gallons every week
GOLD-N-CLEAR® clarifier	Cloudy water due to poor filtration, circulation and organic waste	Initial: 1 fl. oz. per 6,000 gallons Maintenance: 1 fl. oz. per 6,000 gallons weekly for heavy swimmer load, or every 2 weeks for lighter swimmer load
DISSOLVE® enzyme cleaner	Scum buildup	Initial: 10 fl. oz. per 10,000 gallons Maintenance: 3 fl. oz. per 10,000 gallons every week
FILTER BLASTER	Dirty, clogged filter	Initial: Spray on filter when soaking isn't an option Maintenance: Use weekly between filter soaks
FILTERTRINE PRO	Dirty, commercial-sized filter	Initial: Soak in solution of 4 parts water, 1 part Filtertrine Pro for 12-24 hours
THIO-TRINE	Chlorine/bromine level too high	Initial: 1 oz. per 10,000 gallons will neutralize 1 ppm of chlorine or bromine
NO FOAM	Excess foam	Initial: Use as needed
TILE MAX PLUS	Dirty pool surfaces	Initial: Use as directed
HCL ADVANTAGE® acid wash	Acid washing	Initial: Use as directed
WINTERTRINE	Winter algae growth	Initial: Use as directed

*When used in conjunction with chlorine according to label directions
